COVID-19 SAFETY TIPS FOR BREAKROOMS

1. Wash Your Hands Often
   Perform **hand hygiene** upon entering and leaving the break room and before and after you eat.

2. Keep Your Mask On
   Keep mask on to cover your mouth and nose at all times unless you are eating. To minimize risk, **limit the time your mask is off to 15 minutes or less** as having your mask off for less than 15 minutes increases your risk of exposure.

3. Keep 6 Feet Away
   When eating, maintain **social distance** from others, especially those that may also be unmasked to eat.

4. Disinfect
   **Clean after your eat.** Objects and surfaces such as countertops, microwave, and refrigerator handles can be hotspots where bacteria can live and should be regularly disinfected.

5. Avoid Group Meals
   **Avoid social gatherings/eating as a group**, such as potlucks, buffets etc. If planning a group meal for any reason, provide individually packaged servings that are “grab and go.”

FOR BREAKROOMS
- Wash Your Hands Often
- Keep Your Mask On
- Keep mask on to cover your mouth and nose at all times unless you are eating.
- To minimize risk, **limit the time your mask is off to 15 minutes or less** as having your mask off for less than 15 minutes increases your risk of exposure.
- When eating, maintain **social distance** from others, especially those that may also be unmasked to eat.
