For Just \$1,500 Annual Rate!

What The Solutions Center better features allied businesses that wish to share products and services with the dental community through an MDA branded platform ... it's a new resource to find trusted practice solutions.

Why We want our member dentists and other dental team professionals to have access to your most current information ... to get to know your company, people, products and services to help inform their decisions. This platform allows the MDA to easily share these solutions. And, it's easy for you to update and track with page analytics. We love it allows you to share media like video, images and downloads ... a microsite where you can educate your dental clientele.

How Call the MDA for an overview and demo. It's easy to get started and have your profile populated in a short time. Additional bundle options and a la carte choices are available to give you an MDA omni-media presence. Plus, subscribers receive a 25% discount on all MDA magazine ads contracted in 2022.
