St. Joseph MO 64506

Advanced Strategies Managing Dental Insurance
Presented by Travis Campbell, DDS (6 CEU)

Insurance is complex, and even experienced professionals can have challenges that are unnecessary due to this complexity. The average office has 92% collections, which is an unnecessary loss that with simple solutions can achieve immediate results. The most commonly denied services such as Scaling and Root Planing or Crowns and Build Ups can be almost eliminated by understanding what insurance wants and how to provide it. Bring your worst cases and largest challenges, as there is a solution to almost every problem we face. Knowledge is power.

Educational objectives include:

- Understanding Why Challenges Occur and How to Fix Them
- Avoiding Almost All Denials
- Bring YOUR Hardest Cases and Challenges to Go Home With Solutions
- Answering Your Insurance Questions – All Questions Welcome

Registration Information (Fee includes CE & Lunch)

- \$135 ADA Member
- \$200 Non-Member
- \$40 Member Dental Team/Spouse
- \$60 Non-Member Dental Team/Spouse
- FREE for Dental Students
